

Let Us Assess Your ATF Compliance Inspection Vulnerability

DROP-IN VISIT EVALUATION (DIVE) SUMMARY

An FFLGuard "Drop In Visit evaluation" (DIVE) is a "house call" that we can perform unannounced and at our own discretion (with no cost to you), or that you can request and schedule (at an additional charge). We will evaluate your potential vulnerabilities if an ATF inspection were to occur imminently.

We classify these DIVES into two groups: the **SiteVisit** or **DeepDIVE**.

A **SiteVisit** is a Partial-day on-site audit, where we measure a variety of different compliance elements within the operation in a spot check fashion, including:

- **Form 4473 compliance**
- **A&D record compliance**
- **Law Plus Guidelines tally**

Cost: \$750 plus travel - no retainer necessary

The **DeepDIVE** is a multi-day, far-reaching compliance audit/inspection that is more comprehensive than what the ATF or any trade organization would perform. It includes all parts of our **StandardDIVE**, but goes for no less than two (2) full days, as well as additional off-site work before and after the visit, an inventory review, a record-keeping assessment, plus an Attorney/Client privileged report and teleconference to detail our findings and suggested courses of action. The DeepDIVE is a mandatory first step for any HOT client.

Cost: \$150-175 per hour, with a two (2) day minimum, plus travel.
\$6,000 refundable retainer for estimated services – plus –
\$1,500 refundable retainer for travel expenses is required.

DeepDIVES afford clients an additional 5 points toward their Law Plus Guidelines requirement.
